Dear Soccer, Baseball, Softball Parents and Players

I will act on **your** sports field study.

In September 2011, the City completed a feasibility study paid in large part by the Port Moody Soccer Club. Since the Nov 2011 election, nothing.

"Port Moody is losing their youth to Coquitlam and Port Coquitlam as no one wants to play on the inlet gravel field." Jay Holt, Coach, U16 girls MSL level.

In 2000, when I first came to Port Moody, today's beautiful Klahanie neighbourhood was a dusty industrial yard. David Avenue was a dirt pathway. A visionary plan and strong leadership resulted in vibrant neighbourhoods, quality infrastructure and great amenities:

- In Heritage Woods, we built new parks and first class sports fields;
- In Newport Village, Suter Brook and Klahanie, we built high quality plazas, the Canoe Club, employment, services and green space;
- Our plan included the recreation centre expansion, police and fire buildings, Rocky Point Park's rejuvenation, new artificial turf on Trasolini field and countless investments that make Port Moody a great community.

This is a critical time, yet we've seen a watering down of our community plan. The Evergreen Line presents great opportunities if we elect a leader who will channel development pressure into a better plan that connects the dots between jobs, housing, parks, sports amenities & transit.

We also need a leaner management team and more front line workers who focus on neglected services such as sports field maintenance and volunteer support.

As a former Canadian Military Engineer and UN Peacekeeper, I offer a track record of strong leadership and clear vision. A former City Manager, I know the City and how to get things done.

I will act on your 2011 sports field study. With only weeks left to reach families and your neighbours, I need your help to share this message.

Sincerely,

Gaetan Royer, B Arch, MPI
Mayor candidate
